## Logistics provider critical choice for Skin On Location

Logistics provider critical choice for Skin On Location

**Author :** Jonathan Charles

Date : Tuesday, 03 May 2011

Skin On Location has teamed up with fellow North East company InBond Ltd to distribute the Aviva Labs range of Sunless Spray Tan Products.

Skin On Location, the exclusive UK distributor for Aviva Labs sell and distribute products to salons, spas and mobile consultants throughout the UK. The Aviva Labs range of tanning products is already a huge hit in the US and is expected to be just as big here in the UK. Aviva Labs uses only the highest quality, natural or safe ingredients and prides itself on its oil-free, alcohol-free, fragrance-free products.

InBond is Skin On Location's chosen logistics provider, InBond will handle the storage, pick & pack and distribution of the product range. As the owner of a number of salons Skin On Location realises how important it is to get deliveries that contain "what you expect, when you expect", which is why company selected the services of logistics experts InBond.

Lisa Chapman, Managing Director of Skin On Location, says: "We have chosen InBond as our logistics provider due to their proven track record within the warehouse and pick & pack services sector. In just a short period of time InBond have demonstrated a high service level and a flexible approach towards their clients needs.

"It was also important to us," continues Lisa, "to use a logistics provider that could link to our systems; we have worked alongside InBond to fully interface our system with InBond's warehouse management system. This process has been a success and it allows for efficiencies and a full traceability of orders at all times. We look forward to developing our business with InBond."
